DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 7-10, 13-14 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by McGahan et al. (US 7,033,362).

McGahan et al. disclose a system to prepare an intervertebral space for an implant including: a docking ring or spacer 30 having a plurality of spikes 40; a guide tube or body 32; and a mount 8 sized to attach to the docking ring and extending below the distal side of the docking ring wherein a plurality of instruments are sized to mount on the spacer (Figs. 3-5d, col. 7, lines 20-67 and col. 8, lines 1-3).

Claims 20 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Kulisch et al. (US 5,489,307).

Kulisch et al. disclose a device to prepare first and second vertebral members including: a drill tube or body 92; and a reamer end or spacer 130 with outwardly extending wings 131 that mount to the body and position the spacer within the tube (Fig. 31, col. 7, lines 22-33).

Response to Arguments

Applicant's arguments submitted under "REMARKS" in the response filed on February 28, 2007 have been fully considered.

Applicants' arguments with respect to claims 1-5, 7-10, 13-14 and 19 are moot in view of the new grounds of rejection.

Applicants' arguments with respect to the rejections of claims 20 and 21 as being anticipated by Kulisch et al. are not persuasive because spacer 130 is clearly attached to tube 92 by means of hub 132 (see Figs. 31 and 34).

Allowable Subject Matter

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 22-23, 25 and 26 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
